Stability and Legitimate Expectations in International Energy Investments

Rahmi Kopar

This book offers a new perspective on the stability concept in international energy investments. Offering detailed analyses of the latest energy investment arbitral awards from Spain, Italy and the Czech Republic, the book argues that, in order to achieve stability, the legitimate expectations principle should be employed as the main investment protection tool when a dispute arises on account of unilateral host state alterations.

ENERGY TRANSITION

IT'S ALWAYS BEEN THERE

THIS TIME IT IS HAPPENING FAST

THIS TIME IT IS NOT VOLUNTARY

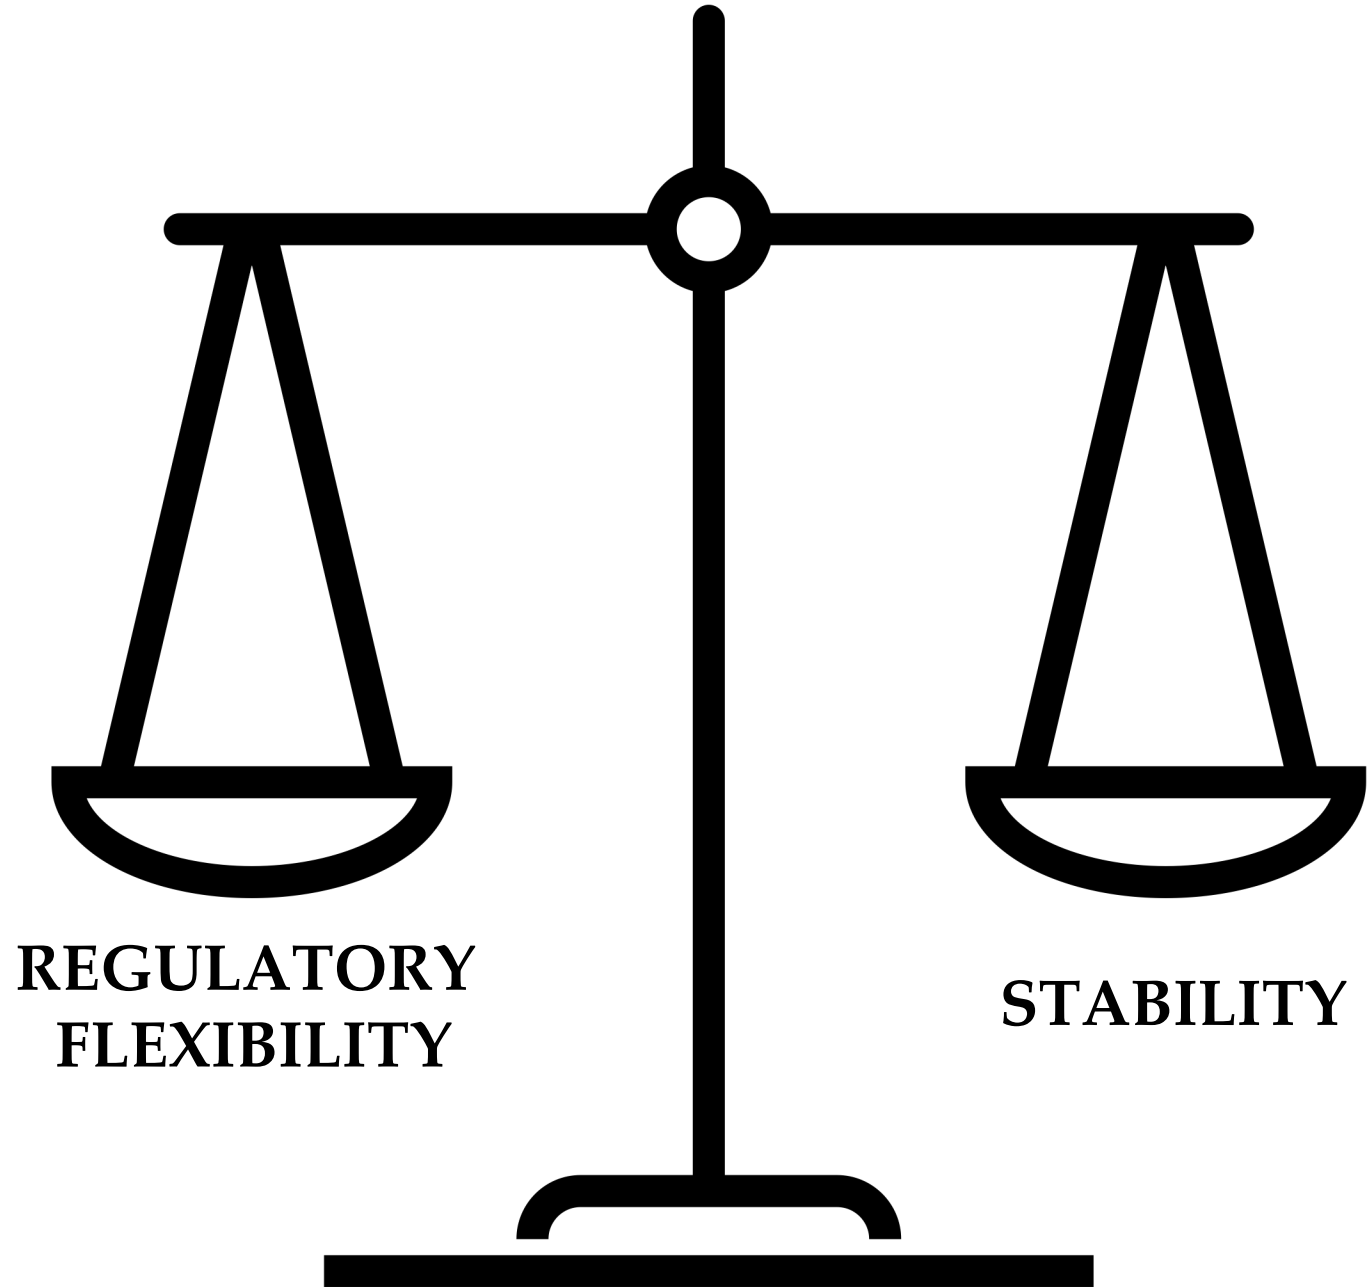

PRIVATE SECTOR DRIVEN

The diagram consists of two large, blue, arrow-shaped blocks pointing towards each other. The left block is a right-pointing arrow containing the text 'PRIVATE SECTOR FUNDED'. The right block is a left-pointing arrow containing the text 'STATE REGULATED'. The two arrows meet at their tips in the center, creating a symmetrical, hourglass-like shape.
